

The Industrial Revolution

Key Themes to look out for

- Foraging & hunter gathering.
- Vegan eating, even for meat eaters.
- Eating native.
- Open fire cooking - oven to tableware.
- Back to basics, rugged & hearty foods.
- Dark colours.
- Exposed pipes, bricks, metal & wood grain.
- Rough edges.
- Framework & structures.
- Urban-grunge influences.
- Stones and woods.
- Communal dining.
- Get stuck in and messy - finger foods, wings, mussels etc.
- Urban can still be premium.
- Craft breads & sides - Focaccias.

Our Embracing Nature & Dive Bar Dining trends of 2017 were an overwhelming success, and have laid the foundations for this coming trend.

Harmoniously uniting both trends, expect to see 'home made', rustic food, cross overs from 'dude food' such as home smoked meats, natural, native and seasonal elements, foraged and found in nature. There is also a possibility that we will start seeing an introduction of native game meats, such as Wood Pigeon, Rabbit, Deer, Pheasant & Quail with some venues really adopting the hunter gatherer idea and even introducing more "out of the box" ingredients, all depending on the season.

We will also see a surge in craft breads, and coffees, as customers get growingly confident knowing what they want and not being afraid to ask for it.

Craft Coffee

If the boom in specialty & craft coffee tells us anything, it's that customers are demanding a better-quality cup of coffee wherever they're purchasing it. Never has the coffee-loving consumer been more interested in the origin of the green beans that go into their beloved espresso or which cows supplied the expertly steamed, lightly textured milk that makes up their flat white.

There is now a huge emphasis on the training of baristas, the upkeep of the coffee equipment and the crockery/glassware in which tea, coffee and chocolate is served.

Cold Brew

A revelation for the balmy, hot conditions we experience during summer in the UK, cold brew coffee genuinely is a revelation.

Brewed cold, no heat is introduced to the ground coffee resulting in a drink that celebrates the individual characteristics of the coffee with limited acidity and bitterness. Should be enjoyed in a glass over ice traditionally without milk, but with is becoming more common.

A very good alternative to espresso as an ingredient in cocktails. Cold brew also offers the option to create in bulk and serve from bottles or a tapped barrel.

Flat White

Along with the Espresso, this drink changed the game for good when it hit UK shores in the early 2000s, spawning numerous specialty coffee shops all looking to serve the best one. Typically served in a 6oz-8oz cup / glass, it is made up of a double espresso and thinly textured milk.
