

TALON

COLOUR RANGE

Steel (Smoke Blue with White)

Mint (Mint Green with White)

Ash (Grey with White)

Noir (Black with White)

The innovative handleless design will allow everyone to enjoy a hot cup of craft coffee or tea. The eye-catching design corrugated profile not only looks good but is the main feature in significantly reducing the contact between cup and user, allowing the consumer to handle whilst hot.

From independent coffee shops to multi-site contract caterers, Talon's design means it will fit in and outperform its dated ceramic alternative. With vibrant and eye-catching colours, Talon will stand out on the table and on the shelves.

Lightweight, 4x stronger than ceramic and super easy to clean – the Talon range is the perfect range for fast paced high volume users.
