About Tork

The Tork brand offers professional hygiene products and services to customers worldwide ranging from restaurants and healthcare facilities to offices, schools and industries. Our products include dispensers, paper towels, toilet tissues, soap, napkins and wipers, and also software solutions for data-driven cleaning. Through expertise in hygiene, functional design and sustainability, Tork has become a market leader that supports customers to think ahead so they're always ready for business. Tork is a global brand of Essity and a committed partner to customers in over 110 countries. To keep up with the latest Tork news and innovations, please visit www.tork.co.uk or www.tork.ie.

About Essity

Essity is a leading global hygiene and health company. We are dedicated to improving well-being through our products and services. Sales are conducted in approximately 150 countries under the leading global brands TENA and Tork, and other strong brands, such as Actimove, JOBST, Knix, Leukoplast, Libero, Libresse, Lotus, Modibodi, Nosotras, Saba, Tempo, TOM Organic, Vinda and Zewa. Essity has about 48,000 employees. Net sales in 2022 amounted to approximately SEK 156 bn (EUR 15 bn). The company's headquarters is located in Stockholm, Sweden, and Essity is listed on Nasdaq Stockholm. Essity breaks barriers to well-being and contributes to a healthy, sustainable and circular society. More information at www.essity.com.

Tork® carbon-neutral dispensers

Produced with certified renewable electricity, and the remaining carbon emissions are compensated with climate projects.

Tork is an Essity brand – a world leader in sustainability

Essity is a global hygiene and health company, recognised as one of the world's most sustainable companies^[1]. For Essity, sustainability is an integral part of its business with a focus on contributing to well-being, sustainable consumption and a circular society.

Essity has joined the UN Global Compact's 'Business Ambition for 1.5°C' to develop targets to reach net zero emissions by 2050 for the entire value chain, in line with the Science Based Targets initiative's (SBTi) criteria.

^[1] Corporate Knights 2023, Global 100.

Essity also supports the United Nations' Sustainable Development Goals (SDG). Our focus is on six specific SDG that have a clear link to our business and where we can make the biggest impact.

Essity has also received many recognitions and accreditations for sustainability.

Tork carbon-neutral dispensers

All Tork dispensers

The large assortment of Tork dispensers are recognised for their hygiene, durability, innovative functionality, ease of use and consumption control. As a trusted partner and the global leading brand for professional hygiene, Tork products improve your business performance through sustainable hygiene management.

Tork carbon-neutral dispensers

As of May 2023, a range of 27 selected existing Tork dispensers in Europe (excluding France) are carbon-neutral certified. Tork has reduced and compensated the carbon emissions for these dispensers across the entire life cycle* – from raw materials to end of life.

All carbon-neutral dispensers are produced with **certified renewable electricity** and the remaining carbon emissions are compensated with **certified climate projects**.

In addition, the dispensers are compatible with a range of sustainable refills.

* Excludes refills.

Sustainable hygiene management

Tork refills work together with our dispensers to help reduce the impact on people and the planet. We focus on key topics that matter to us, your business and your customers: from certified fibres to renewable packaging and compressed products, and from reduced consumption to recycling programmes like Tork PaperCircle®. But we also focus on people by improving accessible and easy to use hygiene for all.

That's how we help people and the planet.

- Tork packaging is 90% made from renewable resources like paper and cardboard
- Tork Easy Handling® ergonomic packaging
- Several Tork systems can reduce consumption by up to 40%*
- Reducing carbon emissions from raw materials to end of life with the life-cycle approach

* Tork SmartOne Twin Mini dispensers compared to traditional maxi jumbo dispensers. Internal research on 7,729 users in Europe. Reduction accounted in square metres per visit.

Certified renewable electricity

As part of the plans to **reduce carbon emissions** for the entire life cycle, a significant reduction has been realised for the production of the selected Tork dispensers. All Tork carbon-neutral dispensers have been produced using certified renewable electricity from sources like bio fuel, wind energy, etc.

Solar energy

Biomass energy

Wind energy

Climate projects

To reach carbon neutral, the remaining carbon emissions have been compensated with investment in three climate projects with the verified organisation, ClimatePartner: from supplying clean drinking water in Cambodia to protecting forests in Indonesia, and investing in energy-saving cooking stoves in India combined with recovering plastic along beaches.

These certified and regularly monitored projects direct resources to low-income countries to help communities mitigate and adapt to climate change. The climate projects contribute also to the United Nations Sustainable Development Goals.
